2. BASIC INFORMATION

Keepers are responsible for identification and registration of animals.

It is necessary for keepers of animals to maintain up-to date information on the animals on their holdings.

Computer central database of keepers, holdings and movements is in place from 2004 for sheep and goats.

The central database records:

- name and address of the keeper or name and address of the organization,
- type (natural or legal person),
- geographical location,
- identification code of the holding,
- identification number of keeper,
- type of the holding,
- the date of birth,
- the breed, the genotype if known,
- the individual identification number of animals,
- the age of animals,
- the sex of animals,
- the date of death,
- the result of the inventory.

3. MEANS OF IDENTIFICATION

Animals are identified:

- A. by two eartags (one eartag in each ear) or
- B. by one eartag and electronic transponder or
- C. by one eartag up to 12 month of age (only animals not involved in intra-Community trade) or
- D. by other means according to Part A point 4 of the Annex to the Regulation No 21/2004 (only animals, that can not be identified by eartag for health or other reasons, animals can not be involved in intra-Community trade)

All animals born on a holding are identified before they leave the holding but at least in age of 6 months. Slovakia does not use derogation to extend this period.

The eartag contains:

- Logo of the Breeding Services of the Slovak Republic,
- Country code,
- Individual identification number
